Ohio Department of Children & Youth

Complaint Inspection Summary Report

All licensed early care and education programs are inspected at least once each year. Non-compliances are documented and grouped by risk level. Documenting statements, technical assistance provided and supplemental information may be included in this report. Licensing inspection reports from the previous three years can be viewed on the Department of Children & Youth website at https://childcaresearch.ohio.gov/ . This includes complaint investigation reports with substantiated allegations. For any other early care and education records, please contact the Family and Customer Support Center at 1-844-234-5437.

Complaint Allegations

If a program disagrees with a licensing finding, the program may request a review of the finding(s). Ohio Administrative Code 5180:2-12-03, 5180:2-13-03, 5180:2-19-10 and 5180:2-20-02 detail the process for submitting a request for review. The request for review must be submitted within ten business days from the receipt of the licensing report. In addition, if the program is Step Up To Quality rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.

Domain: 01 Ratio & Supervision

Rule: 5180:2-12-19 Supervision
Code:

Allegation: Staff members are on their phones when they should be supervising.

Determination: Unable to be determined

Findings: Based on interviews with CCSM's, center directors and administrators, there is insufficient evidence to support said finding. Staff members are allowed to use their personal cell phones to enter into the childcare application for updates such as child attendance throughout the day. The administrator stated that staff members have previously been reprimanded for using personal phones for reasons other than childcare app updates. The administrator also stated that each classroom is usually overly staffed and some staff members in the childcare space are not necessarily needed for teacher child ratio which may look as though staff members are not properly supervising. The rule noncompliance is unable to be determined.
