Rule: 5101:2-12-18 Group Size

Code: The program is required to maintain the appropriate group size for each group of children served.

Findings: During the inspection, group size limitations were not maintained for the group of younger toddlers as it was determined there were 21 children grouped together. The group size shall not exceed twice the maximum number of children allowed per Child Care Staff Member which is a total of 14 children. It was also determined through attendance records for the previous day that the group of older infants was 14 children (should be 12 or less) and a different group of younger toddlers was 15 (should be 14 or less). Provide training to child care staff members, administrators and owner's representatives. Submit the program's corrective action plan, which includes a statement that child care staff members, administrators and owner's representatives have been trained, to the Department to verify compliance with the requirements of this rule.

Technical assistance was provided after the inspection, and as discussed, please correct this rule noncompliance. Submit a written request to this Department if additional space is needed for children less than 2 1/2 years of age.
