Complaint Allegations

If a program disagrees with a licensing finding, the program may request a review of the finding(s). Ohio Administrative Code 5180:2-12-03, 5180:2-13-03, 5180:2-19-10 and 5180:2-20-02 detail the process for submitting a request for review. The request for review must be submitted within ten business days from the receipt of the licensing report. In addition, if the program is Step Up To Quality rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.

Domain: 01 Ratio & Supervision

Rule: 5180:2-12-19 Supervision

Code: The program staff is required to supervise children in their assigned group by sight and hearing. Supervision includes being near enough to respond and reach children immediately including responding to the child's basic needs and protecting them from harm.

Allegation: Children are being hurt due to lack of supervision.

Determination: Substantiated

Findings: During the inspection, it was determined that children were not being properly supervised.

The following was observed: During the inspection, all infants were placed together on the rug, and mobile infants were observed crawling over non-mobile infants, causing the non-mobile infants to cry. One staff member was seated on the floor near the infants while feeding another child. The second staff member was occupied with other tasks in the room, including picking up toys and moving infants to and from cribs.

Incident reports were reviewed. Nine incident reports were completed either within a day of each other or several on the same day at different times, documenting the same child biting other children. During staff interviews, employees stated that these incidents typically occur when one staff member is changing a diaper and the other is feeding a child. Staff reported that they now recognize the need to separate mobile infants from non-mobile infants to reduce the frequency of these incidents.

Provide staff training. Submit the program's corrective action plan, which includes a statement that training was provided, to the Department to verify compliance with the requirements of this rule.

Risk Level: Low
