### Complaint Allegations

*If a program disagrees with a licensing finding, the program may request a review of the finding(s). Ohio Administrative Code 5101:2-12-03 and 5101:2-13-03 detail the process for submitting a request for review. The request for review must be submitted within seven business days from the receipt of the licensing report. In addition, if the program is star rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.*

#### Domain:02 Safe & Sanitary Environment

Rule: 5101:2-12-13 Sanitary Equipment and Environment

Code: The program is required to be kept clean to prevent an infestation of insects or rodents.

Allegation: Mice have been observed at the program.

Determination: Substantiated

Findings: During the inspection, it was determined the program did not have an environment to prevent an infestation by rodents. Submit the program's corrective action plan, which includes verification that the issue has been resolved, to the Department to verify compliance with the requirements of this rule.

Risk Level: Low

Corrective Action Plan Due: 12/04/2024

#### Domain:02 Safe & Sanitary Environment

Code: The program is required to follow the cleaning schedule for equipment.

Allegation: Closets and rooms have an unclean smell.

Determination: Substantiated

Findings: During the inspection, it was determined that the program was not providing a clean and healthy environment. While the classrooms did not have any odors the storage cabinets in the infant room had an unclean odor. Submit the program's corrective action plan, which includes verification that the issue has been resolved, to the Department to verify compliance with the requirements of this rule.

#### Domain:04 Indoor/Outdoor Space

Rule: 5101:2-12-11 Outdoor Play Fall Zones

Code: The program is required to provide adequate fall surface for the outdoor play space.

Allegation: There's an inadequate amount of protective resilient material on the ground under and around the outdoor play equipment.

Determination: Substantiated

Findings: During the inspection, it was determined that the playground did not have adequate fall surface under and around equipment in that there was not fall surface around slides and a climber on the infant/toddler play area. On the preschool and

school age outdoor play areas there was an inadequate fall surface to soften the impact of a fall. Resilient material, as specified in Appendix A, needs to be added in order to protect children in the event of a fall. Submit the program's corrective action plan, which includes written verification of the discontinued use of this equipment until corrections are made along with a description of the resilient material added, to the Department to verify compliance with the requirements of this rule.

The program is required to have staff trained to perform the procedures on the JFS 01236 "Child Medical/Physical Care Plan for Child Care" present at the program when the child requiring the procedure is onsite. Only staff who have been trained shall be permitted to perform the procedures listed on the JFS 01236.
