

Licensing Inspection Full Report

All licensed early care and education programs are inspected at least once each year. Non-compliances are documented and grouped by risk level. Documenting statements, technical assistance provided and supplemental information may be included in this report. Licensing inspection reports from the previous three years can be viewed on the Department of Children & Youth website at <https://childcaresearch.ohio.gov/>. This includes complaint investigation reports with substantiated allegations. For any other early care and education records, please contact the Family and Customer Support Center at 1-844-234-5437.

Summary of Non-Compliances

If a program disagrees with a licensing finding, the program may request a review of the finding(s). Ohio Administrative Code 5180:2-12-03, 5180:2-13-03, 5180:2-19-10 and 5180:2-20-02 detail the process for submitting a request for review. The request for review must be submitted within ten business days from the receipt of the licensing report. In addition, if the program is Step Up To Quality rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.

Serious Risk Non-Compliances

A serious risk non-compliance is a licensing rule violation that has the potential to lead to a great risk of harm to a child and is observable and/or based on facts.

No serious risk non-compliances were observed during this inspection

Moderate Risk Non-Compliances

A moderate risk non-compliance is a licensing rule violation that has the potential to lead to a great risk of harm to a child and is observable and/or based on facts.

Domain: 07 Diapering & Infant Care

Rule: 5180:2-12-20 Cribs - Safe Environment and Practices

Requirement: The program staff is required to remove any items listed in rule that are a potential suffocation risk from cribs.

Finding: During the inspection, it was determined that a child had been placed in a crib with an object strung over the crib (sleep sack) that created a potential strangulation or suffocation risk. Another infant was observed, sleeping in a crib, and she was swaddled with her arms in, and she rolled over from her back to her stomach.

The rule prohibits any item which obstructs child-care staff's visibility or poses a risk of strangulation or suffocation from being placed on or in a crib. Remove the item(s) immediately. Provide staff training. Submit the program's corrective action plan, which includes a statement that training was provided, to the Department to verify compliance with the requirements of this rule.

Corrective Action Plan Due: 08/13/2026

Other Non-Compliances

This section includes other rule violations that are observable and/or based on facts.

No other non-compliances were observed during this inspection

Technical Assistance Provided

This section documents technical assistance provided to the program when the program demonstrated an overall level of compliance with a rule requirement.

In Compliance/Not Verified/Previously Verified/Not Applicable

This section documents rule requirements that were assessed as fully compliant, previously verified, not verified during this inspection or not applicable to the program.
