Complaint Allegations

The request for review must be submitted within ten business days from the receipt of the licensing report. In addition, if the program is Step Up To Quality rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.

Domain: 01 Ratio & Supervision

Rule: 5180:2-13-19 Supervision

Code:

Allegation: A child was in care of the provider and caller alleges that on two different occasions another child bit the child numerous times. Caller is concerned where the provider was during these incidents.

Determination: Unable to be determined

Findings: Based upon the investigation, the alleged rule violation was unable to be determined due to provider states that she was aware of a child being bitten by another child on one occasion and discussed the other bite incidents with caretaker. Provider states that the children were in the living room at the time the child was bitten and the provider was coming from the restroom. The provider and County Licensing Specialist went to each room that is used and the children could be either seen or heard while indoors and in the different rooms.
