Domain:01 Ratio & Supervision

Rule: 5101:2-12-18 Attendance Records

Code: The program is required to have a method for tracking the children in each group. The tracking method must be updated throughout the day and kept with the group at all times.

Findings: During the inspection, it was determined that the method for tracking children in each group did not meet the requirements of the rule as noted in number 4 below:

1. There was no method in place;
2. The method did not include each child's name;
3. The method did not include each child's date of birth;
4. The tracking method did not remain with the group at all times - observed attendance records kept in the building while the group was outside in the play area;
5. The tracking method was not updated throughout the day as children entered or left the group.

Submit the program's corrective action plan to the Department to verify compliance with the requirements of this rule.

Domain:04 Indoor/Outdoor Space

Rule: 5101:2-12-11 Outdoor Space Requirements

Code: The program is required to have an outdoor play space free from immediate risk.

Findings: During the inspection, it was determined that an area was used which was not protected from traffic and other hazards by a fence in good repair, or other barrier. Although the fence or natural barrier was not meeting the rule requirements, it was determined to not present an immediate risk for a child to be able to leave the playground. The fence or gate was not in good repair and/or being used inappropriately as noted in number 8 (toddler gate - just push on it and it opens) below:

1. The fencing had missing slat boards.
2. The fencing was broken.
3. The fencing was loose.
4. The fencing was rotting.
5. The gate was broken and did not close.
6. The gate was locked.
7. The latch on the gate was broken.
8. The latch was easily opened by children on the playground.
9. The gate had no latch.

Submit the program's corrective action plan to the Department to verify compliance with the requirements of this rule.
