

Center Complaint Inspection Summary Report

All licensed child care programs are inspected at least once each year. Non-compliances are documented and grouped as Serious, Moderate or Low risk violations. Documenting statements and supplemental information may be included in this report. Licensing inspection reports from the previous three years can be viewed on the child care website at <http://jfs.ohio.gov/CDC/childcare.stm>. This includes complaint investigation reports with substantiated allegations. For any other child care records, please contact the Child Care Help Desk at 1-877-302-2347, option 4.

Complaint Allegations

If a program disagrees with a licensing finding, the program may request a review of the finding(s). Ohio Administrative Code 5101:2-12-03 and 5101:2-13-03 detail the process for submitting a request for review. The request for review must be submitted within seven business days from the receipt of the licensing report. In addition, if the program is star rated, the rating may be impacted if a serious or moderate risk non-compliance is cited.

Domain:04 Indoor/Outdoor Space

Rule: 5101:2-12-11 Outdoor Space Requirements

Code: The program is required to have an outdoor play space free from trash and foreign objects.

Allegation: Complainant alleges that the outdoor playground area is not safe.

Determination: Substantiated

Findings: During the inspection, it was determined that the outdoor play space was not free of trash or foreign objects as noted in number 15 below:

1. The outdoor area was littered with trash.
2. The trash can was missing a lid.
3. The trash can was not emptied from the day(s) before.
4. The trash can was overflowing with trash.

Rule: 5101:2-12-11 Outdoor Play Fall Zones

Code: The program is required to provide adequate fall surface for the outdoor play space.

Allegation: Complainant alleges that the playground did not have adequate fall surface under and around equipment.

Determination: Substantiated

Findings: During the inspection, it was determined that the playground did not have adequate fall surface under and around equipment as noted in numbers 2 & 3 below:

1. No fall surface
2. Adequate fall surface to soften the impact of a fall (the mulch under and around the climbers was not adequate, in that there was dirt in most of the area without mulch).
3. Adequate fall surface to soften the impact of a fall that extended the length of the required fall zone (the mulch under and around the swings was not adequate, in that there was dirt in most of the area without mulch).
4. Other []

With any equipment designed for climbing, swinging, bouncing, or sliding, resilient material, as specified in Appendix A, needs to be added in order to protect children in the event of a fall. Submit the program's corrective action plan, which includes

written verification of the discontinued use of this equipment until corrections are made along with a description of the resilient material added, to the Department to verify compliance with the requirements of this rule.
